

"The First Year I Made \$475 —and Worked Only in My Spare Time"

Here is the actual experience of a woman who learned how to turn spare time into money. Read how scores of others are doing it—right in their homes.

By MRS. GEORGE POOL

LIVING on a very small income always calls for courage and strict economy, even when one is in the line of health. But when sickness comes, and big unexpected expenses begin to pile up, it takes a stout heart indeed to face the bills without being filled with despair.

My husband makes a very modest living, but with careful management it was sufficient for our needs. We had no luxuries, but we got along fairly well—until I fell sick. Then followed weeks of worry and doctor's bills, and finally it was decided that the only thing that would really remedy my trouble was a very serious operation.

There were no two ways about it—I had to have the operation—so I did—although we had no idea where the money was to come from. My husband worried about it a good deal, and we both started trying to save, in order to pay the doctor, in time.

All this time I felt that I ought to find some way to help pay our debts, but I wasn't very strong and couldn't do any work that I would have to leave my home to do.

If I Could Only Find Some Home Work

I read the papers and magazines eagerly and considered various things I might do, but everything I thought of always had some big objection—either it didn't pay well enough or required too much effort for my health, or something.

Finally, one Sunday I was reading a magazine and saw a page advertisement that started with the words, "Make Money in Your Own Home."

I read in this article how women everywhere were turning their spare hours into dollars by making socks on a hand-knitting machine called the Auto Knitter. The firm agreed to take and pay for all socks made according to directions by owners of the machine.

This looked practical for me, as it was light work that I could do in the house, so I decided to write for particulars.

When the company's free literature came I studied it eagerly. It was so convincing and reasonable that I felt more certain than ever this was, indeed, the money-making home work that I was seeking. I had such faith in it, that I decided to borrow money enough to order one of the "Auto-Knitter" machines. A friend helped me and I was soon the happy possessor of a way to make money and help pay our debts.

I Started Making Money Almost at Once

With the machine came a fine illustrated instruction book that showed what to do, step by step, and it wasn't long until I had mastered it and was turning out fine, well-knit wool socks to send to the Auto Knitter Hosiery Company in Toronto.

As soon as I had sent a shipment back came my pay check for the work, together with a new amount of yarn to replace that used in the socks sent. The company was always very prompt and the work called for so little effort that I kept at it quite steadily.

In three months' time I had made enough in my spare time to pay back what I had borrowed and my large doctor's bill too. It made me very happy to be able to make extra money at home, for my husband stopped worrying. Besides, I knew the Auto Knitter would help us to have more comforts for our home in the future.

At first I worked only for the Company, sending them shipments of socks and getting my checks back promptly—but soon friends and neighbors learned that I had a knitting machine, and began to give me orders to do knitting for them. Before long I had worked up quite a little home business and could have done more if I had more time to give to it. I have never worked full time—only when I had it to spare—but in the first year I had my Auto Knitter I made \$475.00.

[Extra Money Problem Solved]

Things went along much more smoothly now, although my health was still far from perfect. I was able to help my husband in making our living, as I bought all my own clothes and helped to run the house.

Then last October I had to have another operation. Of course I dreaded it, but this time the prospect did not fill me with despair as before, for I knew that the trusty little Auto Knitter would help to pay the doctor's bill—and so it did.

When I was over the operation I put an ad. in the paper and the result was surprising. I received more work than I could hardly do.

In a month and a half I made, in all, 429 pairs of hosiery of various kinds—men's socks, and boys' and girls' stockings. I also made several pairs of mitts.

The people were so pleased with my work that they kept coming back for more, and told others about me. Also three women who saw what lovely work my Auto Knitter did wanted machines for themselves and so I was able to sell three machines for the company.

I could write a good deal more about how the Auto Knitter has helped me but I have told enough to show what a God-send it has proved in helping me and my husband to pay our debts and live better.

We Guarantee a Permanent Market

Mrs. Pool's experience, told here in her own words, is simply one of many. Letters are continually coming in from men and women all over the country telling of similar successes in making money right at home with the Auto-Knitter.

The beauty of the Auto-Knitter home-work plan is that you never have the least bit of trouble disposing of the standard socks that you make on your Auto-Knitter. We enter into a contract, agreeing to take all the standard socks you knit and send to us, paying for them at a fixed guaranteed price per pair.

This contract doesn't restrict you at all. You can work for us as much—or as little as you please. If you wish to work for a home trade, selling the socks to local stores, or direct to your friends and neighbors, as Mrs. Pool has done, you are perfectly free to do so. But we are always ready to take as much of your standard output as you care to send, paying you good wages—on a piece-work basis—for the time you put in.

Write for Liberal Wage Offer

Of course you are interested. No matter where you live—on a farm, in a small town, or in the heart of a great city—you have the spare-time problem to consider. You want to turn your leisure hours into dollars. And so you would like to know all about the knitting machine that has meant as much to other people. By all means, write to the Auto-Knitter Hosiery (Canada) Company, Ltd., Dept. 21, 1870 Davenport Road, Toronto, Ont., and find out about the pleasant occupation waiting for you—Auto-Knitting. Learn what other folks are doing, and the substantial amounts that even a part of your spare time will make you.

Remember that previous experience in hand-knitting is not necessary. An inexperienced person without special talent can learn to operate the Auto-Knitter, and turn out standard socks.

You will never regret writing for information about this remarkable machine. Send your name and address now, and find out all of the good things that are in store for you.

Auto Knitter Hosiery (Canada) Co., Ltd.,
Dept. 21, 1870 Davenport Road,
West Toronto, Ont.

Send me full particulars about "Making Money at Home" with the Auto-Knitter. I enclose 3 cents postage to cover cost of mailing, etc. It is understood that this does not obligate me in any way.

The Railways of Canada live in your station box

New Railway Rates!

For Passengers

The advance on sleeping and parlor car tickets authorized in 1980 has been cut in half—the advance made on ordinary fares at that time having been completely taken off many months ago.

For Shippers

The percentage of advance granted to the Railways in 1980 has been reduced ten points. In addition to a five point drop at the first of the year.

These changes become effective December 1st

Your Cost of Living

YOUR cost of living should be directly affected, if it is not it is because (1) as the railways have pointed out before, the actual money paid for their services is an allowed negligible factor in making prices, and because (2) even the huge sum now cut out of the railways' revenues and amounting to approximately—

\$25,000,000.00*

annually—becomes a very small fraction of a cent when split up among the billions upon billions of small and large automobiles which constitute the freight traffic of Canada during a year. And because

(3) the Court which has the power to control railway rates is not able to direct who is or is not to get the benefit of reductions. In other words, whether these savings in railway charges are passed on to you—or whether they are absorbed in marketing, cannot be controlled either by the railways or the public.

BUT this fact remains: a very great sum of money—enough to build every year a small city, or a Quebec Bridge, or four hundred and fifty of the newest and most powerful locomotives—is now returned down the vestibules of the Canadian Railways and should be reflected at least to some extent, in the family budgets of all Canadians!

WHETHER your savings can continue to function without the revenue that lost to them, is an experimental problem facing the various governments. It depends largely on whether their income up or falls off—and whether cuts are or decline. But the governments are attempting the problem cheerfully and with determination to keep Canada's railway service the cheapest, safe for rail, and among the most efficient in the world!

Canada's first woman representative in the United House approaches her task in an spirit of working self-consciously to be understood. Judgement as the "Mother of Truth," where it has led to the "crime" does, indeed, have gone down in defeat. The fact even makes the well-known remark by the House: "However much we do intend their non-acceptance, absolutely to take care to say of the decision is a mistake that no member will share," when she has the House "against Marshall" in a heated opinion, voting and speaking, generally, in times and moments of a traditional situation that is necessary.

[illegible]

When speaking in public her strong, confident voice makes itself easily heard throughout the audience, and she is

her people. She was quite heavily pregnant, but there is much to be forgiven her. She has the love that comes with conviction, and that she does measure up to is not the least of her virtues. She is a woman who is not afraid to be a woman.

Figure 1

Hill & Alvarez grant the language-immersion students, with heavy help from the local business community, a 100 percent tuition scholarship for the first two years of college. Students are also paid wages for their class time and receive a stipend for their living expenses. "It's possible to make this like some sort of merit scholarship if it's designed to be language-rich and not focus exclusively on very academically gifted students," Hill says. "It's possible to make it like a merit scholarship that focuses on language ability and bilingualism." One must be cautious in the search of a model that works in her specific context, he cautions. "Speaking Spanish when it's possible like being bilingual when it's possible," he says, "is an ideal that I have never seen and I don't see it like we realize it in the United States or in the Chinese or

It is interesting to note that the Chinese version of *Ching-ching* was written in 1957 and was published in 1960. China's first film festival, the 10th Shanghai Film Festival, was held in 1959. Presumably at the end of the festival, *Ching-ching* was acquired. Within a few days, the film was shown in the People's Theatre and the People's Cinema, and within a month, it had been shown in more than 100 theatres in the country. It was a great success and was later shown in other cities. The film was shown in the People's Theatre and the People's Cinema, and within a month, it had been shown in more than 100 theatres in the country.
